

MEMORANDUM FOR: Director of Personnel

SUBJECT: Communications Personnel Staffing of High Priority Projects

1. The Office of Communications has been requested to provide support for two high priority projects. This support requires the Director of Communications to provide approximately 111 Communications personnel. As an immediate stop-gap measure, he is detailing all available Communications personnel in the Washington area regardless of grade or assignment.

2. In order to staff these projects permanently and release detailed personnel urgently needed in other operations, the processing of Communications applicants must be accomplished with the least possible delay.

3. The Director of Security has been requested to give immediate attention to the clearance of all applicants scheduled for assignment to the Office of Communications.

4. The priority accorded these projects and attendant demands for Communications personnel are such that I am requesting you to give the Office of Communications special consideration for the assignment of available personnel presently in the Interim Assignment Section who may be qualified for Communications Assignments.....

5. Requirements of these projects for Communications personnel in addition to normal replacement needs of the Office of Communications will require proportionately greater recruitment efforts, and I am requesting that Communications personnel recruitment be accorded a high priority.

6. I realize that you are cognizant of the importance of these projects and the mandatory aspect of the support which we must give them. I have assured ██████████ of your complete cooperation in the staffing of these projects and his Office.

L. K. WHITE
